*Making quality saw blades since 1913*

Precision-  
**CIRCULAR SAW BLADES**  
for Metals

## WHO IS TENRYU:

**TENRYU** is an international Enterprise with headquarter in Fukuroi Japan and listed on the stock exchange.

**(DUNS® Nr. 690662879)**

The company was founded over 100 years ago in 1913 and first activities go back to 1910.

TENRYU is operating around the globe with own branches, offices and service centers in Asia, Europe and America and operates with Partners and Sales- and Service-Cooperations in practically all countries around the World.

To be near to our customers is the key to perfect solutions.

Our production facilities are located in Japan, Thailand and China.

Over 1000 skilled employees are working for the TENRYU Group.

Principally we produce Circular Saw Blades to cut practically any material like Metals, Non Ferrous Metals, Wood and Compounds, Paper and Cardboard, Stone, Plastics etc. in any form and shape.

The first ever Circular Saw Blade produced in Japan was made by TENRYU and so we are proud and legitimate to call us:

**PIONEERS of  
Sawing Technology!**

# OUR QUALITY AND SERVICE PHILOSOPHY:

## **SAWING IN A NEW DIMENSION!**

High cutting speed, precise cut, best cutting surface and long lifetime, are results of over 100 Years of Research and Development. Constant adaption on evolution of techniques on the market and own creation are driving elements of our work. Continuing Co-Operation with Machine-Producers, Industry and Institutes and the will to find solutions to growing requests, necessities and challenge are the base of our Know-How.

## **QUALITY, SAFETY, ENVIRONMENT!**

Since existence of our company these topics are integrated in our daily work and are permanently developed to meet new requests and possibilities and are monitored by a rigid Quality-Management. Relating Certifications to ISO, ROHS, IECQ etc. are constantly updated und controlled by independent Institutes and Officials.

## **ECONOMIC SAWING IS SYMBIOSIS OF TOOL AND MACHINE!**

Our specialists, with their established skill and in step with actual practice experience, will support you and your staff „at the machine“ to achieve best possible sawing result!

**Innovative Products and Service at the customer is our choice and distinguish us from others.**

**Compare! Ask TENRYU!**
